

Technical drawing of a circular part, likely a cross-section of a pipe or a similar cylindrical component. The drawing shows concentric circles representing the inner and outer diameters. The outer diameter is labeled as  $\varnothing 74.0$  and the inner diameter is labeled as  $\varnothing 58.0$ . The drawing includes a center line (dashed line) and a dimension line indicating the outer diameter. A small circle with a dot inside is located on the center line, possibly representing a hole or a specific feature. A leader line points to this feature.
